# Introduction

Welcome to the age of BirdFlu Coin, the satirical cryptocurrency that is conquering the world of digital assets with humor and irony. In a world full of scaremongering and exaggerated measures, we offer an investment opportunity that not only brings financial benefits, but also puts a smile on your face.

# Motivation

In the midst of pandemics and global crises, with BirdFlu Coin we want to create a platform that reflects the absurdities and exaggerations of our time in a humorous way. BirdFlu Coin is more than just a cryptocurrency; it is a movement that combines satire and digital innovation.

# Tokenomics

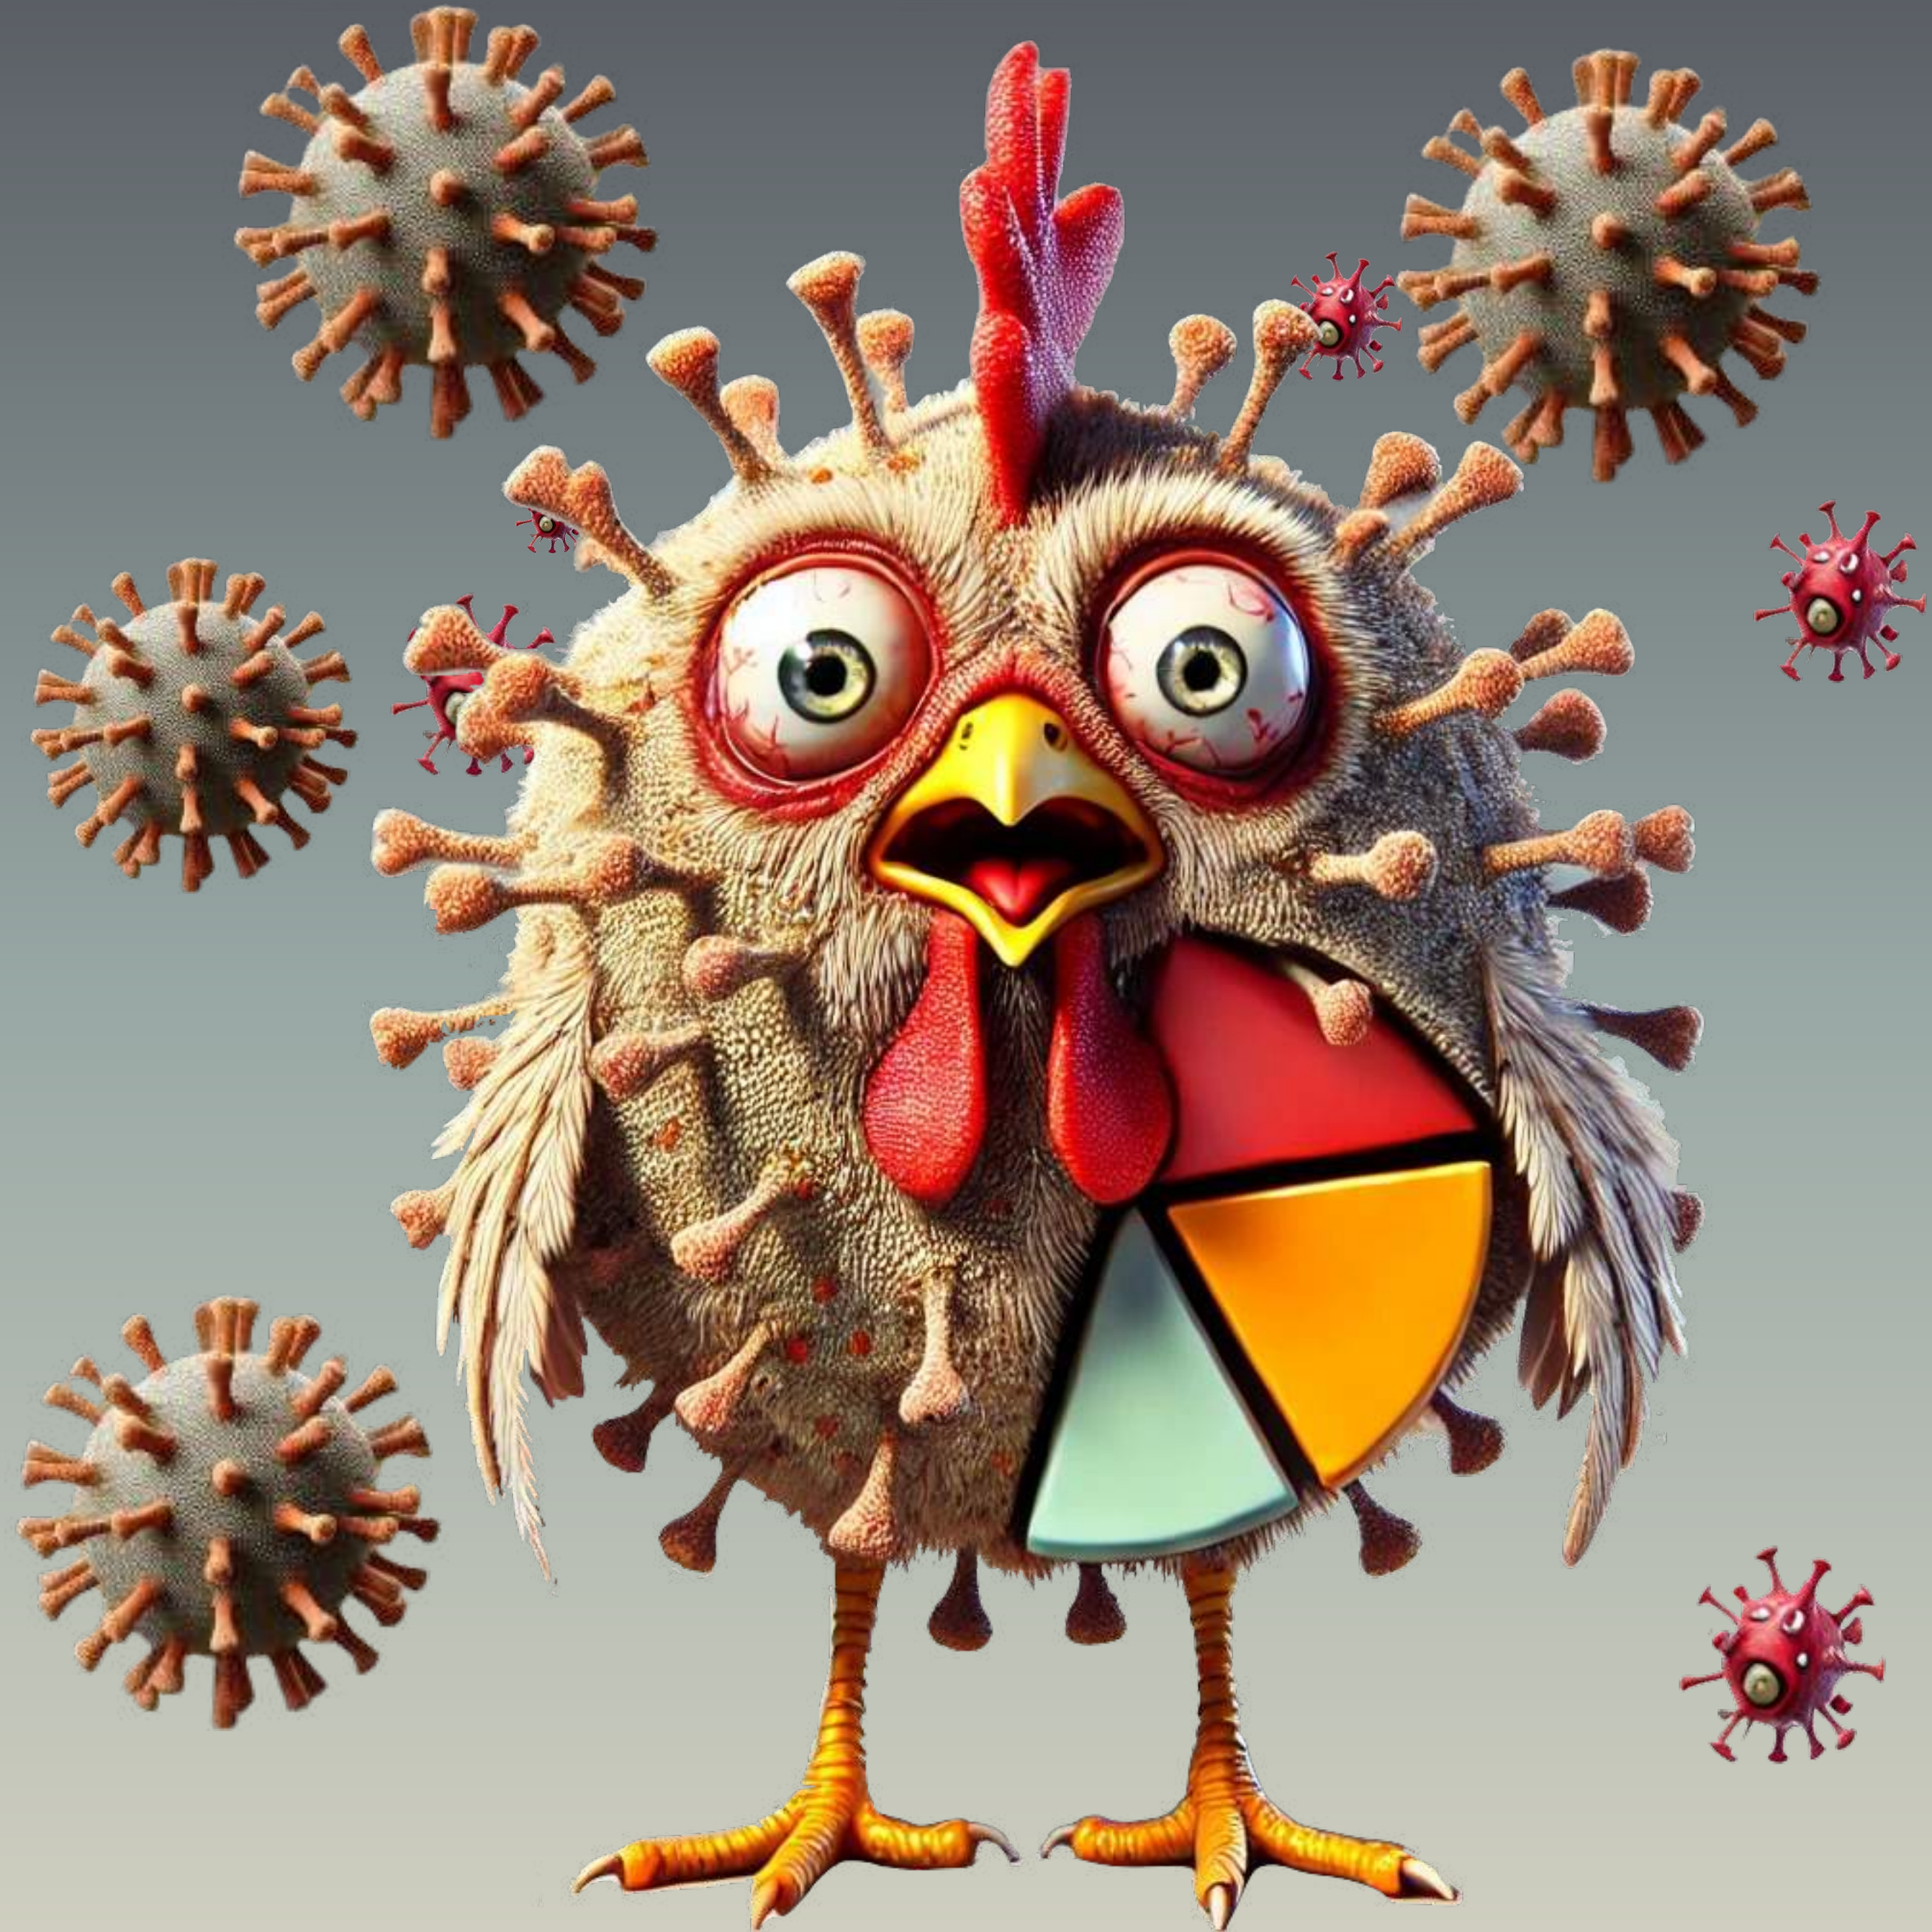

## **51% for liquidity**

A majority of these funds are invested in liquidity to ensure that BirdFlu Coins are always available and tradable.

## **24% for pre-sale and DEX listing**

These funds support the pre-sale and listing on various decentralized exchanges.

## **25% for Marketing, Airdrop, Development**

# Technology & Security

BirdFlu Coin is based on the Solana blockchain, which is ideal for our project due to its high transaction speed and low cost. Using Solana allows us to provide a smooth and efficient user experience.

Our platform and smart contracts have been thoroughly audited by Coinsult to ensure the highest security and reliability. In a world full of satire, we take the security of our investors very seriously.
